SUMMARY

Lead Product Designer with 10+ years of experience leading 0-to-1 and enterprise platform initiatives across AI, fintech, and developer tools. Experienced transforming complex operational systems into intuitive products through product strategy, systems thinking, user research, and cross-functional leadership that delivers measurable business outcomes at enterprise scale.

EXPERIENCE

JPMorgan Chase & Co.

March 2022 - Present

Vice President, Experience Designer

- Led the end-to-end design of a shared database control plane that centralized fragmented service operations across 11 database products, enabling 40,000+ engineers to manage product lines through a unified experience that reduced cognitive load, streamlined service operations, and decreased reliance on support teams.
- Led the modernization and replatform of Branch Metrics Dashboard, JPMorgan Chase's regulatory and compliance platform for branch operations, cash audits, and operational reporting, reducing missed audits by 90% and increasing compliance attestation adoption to 98%.
- Redesigned enterprise KYC workflows supporting regulated banking operations, achieving 100% task completion, a 95/100 usability score, and eliminating seven critical usability gaps.
- Directed product strategy, discovery, and executive stakeholder alignment across AI-powered experiences, cloud infrastructure, APIs, and enterprise developer platforms through user research, cross-functional workshops, and iterative validation.

JPMorgan Chase & Co.

Mar 2020–Mar 2022

Sr. UX Designer — Associate

- Defined product strategy and end-to-end UX for Legal Engagement, a portfolio of enterprise legal applications supporting litigation, outside counsel management, legal data, settlements, reserves, and regulatory operations, improving audit readiness, operational transparency, and governance across JPMorgan Chase Legal.
- Led end-to-end product design for LitHub, an enterprise litigation management platform that enables attorneys to manage legal matters, outside counsel, reserves, settlements, budgets, and litigation workflows through a centralized experience integrated with the broader Legal platform.
- Reduced outside counsel audit completion time by 83% by leading the 0-to-1 design of an audit management platform that transformed fragmented SharePoint, email, phone, and document-based processes into a centralized digital workflow for JPMorgan Chase attorneys.
- Led customer research, workflow analysis, usability testing, and stakeholder workshops that informed modernization initiatives and product strategy across Legal, Risk, and Compliance.

Bath & Body Works

Sep 2018 – Mar 2020

Lead UX Designer

- Led end-to-end product design for Buy Online, Pick Up In Store (BOPIS), defining omnichannel customer journeys that contributed to digital sales growth from \$743M to \$1.23B year over year through a seamless online and in-store fulfillment experience.
- Led the Apple Pay integration across Bath & Body Works' e-commerce platform, partnering with Product and Engineering to deliver a secure, frictionless mobile checkout experience that achieved 90%+ customer satisfaction through a streamlined payment experience.

g20

Feb 2018 – Sep 2018

UX Designer

- Designed enterprise banking experiences for First National Bank and KeyBank across onboarding, disputes, identity verification, and other regulated financial workflows.
