Professional Experience

J.P. Morgan Chase & Co. — VP. Lead UX Designer

March 2022 – Present

Lead experience strategies across Consumer Banking and Corporate Sector organizations, partnering with Product, Technology, Data & Analytics, Risk, Compliance, and Operations leaders to modernize enterprise products, platforms, and internal systems.

- Managed and mentored 3 UX designers, overseeing hiring, resource allocation, performance coaching, and design quality across multiple product portfolios.
- Served as area product group design lead, defining experience strategy, research direction, and roadmap priorities for branch operations, compliance, consumer banking, and infrastructure platform initiatives.
- Facilitated workshops, stakeholder alignment sessions, and prioritization exercises that drove investment decisions and future-state product strategies.
- Leveraged AI-assisted development tools, GitHub Copilot, and frontend technologies to create reusable UI components, accelerate product delivery, and automate research transcription, synthesis, and insight generation.
- Led discovery research, service blueprinting, workflow analysis, and usability testing efforts used to align stakeholders and secure support for large-scale modernization programs.
- Modernized branch operations and compliance experiences, contributing to a 90% reduction in missed audits and 98% compliance attestation adoption.
- Redesigned KYC compliance workflows, achieving 100% CSAT, 9.5/10 usability scores, and closing 7 customer experience gaps.
- Defined the experience strategy for a shared control plane platform supporting 40,000+ engineers, aligning 11 product teams around a unified vision for relational and non-relational database management.
- Led modernization initiatives supporting 1.5 million Chase First Banking accounts and 22,000+ annual compliance investigations, improving operational efficiency while reducing platform and process complexity.
- Defined a unified experience strategy for relational and non-relational database platforms, reducing operational fragmentation and aligning 11 product teams around shared workflows and patterns.

J.P. Morgan Chase & Co. — Sr. UX Designer

March 2020 – March 2022

Led research, strategy, and experience design initiatives supporting Legal, Risk, and Compliance platforms.

- Led end-to-end UX strategy, research, and design for Legal Engagement, an enterprise platform used by in-house attorneys to manage relationships with external law firms and oversee regulatory audit activities.

Professional Experience (Continued)

J.P. Morgan Chase & Co. — Sr. UX Designer (Continued)

March 2020 – March 2022

- Conducted customer research, stakeholder interviews, workflow analysis, and usability studies to identify opportunities for automation, operational efficiency, and risk reduction.
- Authored executive-level research findings and strategic recommendations that informed product roadmaps and investment decisions.
- Modernized quarterly and semi-annual audit workflows by automating communication processes, centralizing documentation management, and improving audit tracking and visibility.
- Reduced reliance on spreadsheets, email-based coordination, and manual record keeping through cloud-based workflow and reporting solutions.

Bath & Body Works

Lead UX Designer

September 2018 – March 2020

Led UX strategy, research, and experience design initiatives supporting omnichannel commerce, checkout modernization, and digital customer experiences.

- Co-led the end-to-end design of the Buy Online Pickup In-Store (BOPIS) experience, a flagship omnichannel initiative that contributed to significant growth in digital and in-store engagement.
- Co-conducted discovery research, journey mapping, usability testing, and stakeholder workshops to define customer and operational requirements.
- Partnered with business analysts and product stakeholders to define functional requirements, establish roadmaps, and improve delivery efficiency across multiple initiatives.
- Collaborated with third-party vendors and technology partners to align integrations, APIs, and customer experience requirements.
- Contributed to the BOPIS experience that helped drive a 65% increase in sales, growing revenue from \$743.5M to \$1.23B year over year.

g20 — UX Designer

February 2018 – September 2018

Supported discovery research, UX strategy, workflow analysis, and early-stage product design across digital banking modernization initiatives, including First National Bank's eStore transformation and KeyBank's dispute-management redesign.

- Conducted user interviews, journey mapping, workflow analysis, and usability testing to identify customer pain points and experience opportunities.
- Created wireframes, process flows, and interactive prototypes for onboarding, dispute-resolution, product comparison, and identity-verification experiences.
- Collaborated closely with product managers, business analysts, visual designers, and engineering teams to align user needs with business and technical requirements.
