📍 Columbus, OH

SUMMARY

Digital Experience and Product Design Leader with 10+ years of experience shaping customer and employee experiences across banking, fintech, e-commerce, and enterprise platforms. Experienced managing design teams and product portfolios, setting experience strategy, and guiding 0-to-1 products from discovery through delivery. Combines human-centered design, research, and systems thinking to simplify complex journeys and deliver secure, accessible experiences with measurable customer and business outcomes.

EXPERIENCE

JPMorgan Chase & Co.

March 2022 - August 2026

Vice President, Experience Designer

- Managed a team of three designers and served as design lead for a five-application Branch Operations portfolio, setting design direction, overseeing 0-to-1 initiatives, and aligning experience strategy across products supporting branch employees and operations.
- Modernized the Branch Metrics Dashboard, JPMorgan Chase's regulatory and compliance platform for branch operations, cash audits, and operational reporting, reducing missed audits by 90% and increasing compliance attestation adoption to 98%.
- Directed the end-to-end experience strategy for a shared database control plane, unifying fragmented service operations across 11 database products and enabling 40,000+ engineers to manage services through a consistent experience that reduced cognitive load and reliance on support teams.
- Shaped Savings Goals for the Chase First Banking modernization, supporting the migration of 1.5M accounts to an in-house platform that saved \$30M+ in vendor costs while achieving 100% task completion and a 4.58/5 ease-of-use score.
- Redesigned enterprise KYC workflows for regulated banking operations, achieving 100% task completion, a 95/100 usability score, and eliminating seven critical usability gaps.
- Drove product strategy, discovery, user research, and stakeholder alignment across digital banking, AI-powered experiences, cloud infrastructure, APIs, and enterprise platforms through cross-functional workshops and iterative validation.

JPMorgan Chase & Co.

Mar 2020–Mar 2022

Associate, Sr. UX Designer

- Defined product strategy and end-to-end UX for Legal Engagement, a portfolio of enterprise applications supporting litigation, outside counsel management, legal data, settlements, reserves, and regulatory operations, improving audit readiness, operational transparency, and governance.
- Designed LitHub, an enterprise litigation management platform that centralized legal matters, outside counsel, reserves, settlements, budgets, and related workflows within the broader Legal platform.
- Reduced outside counsel audit completion time by 83% by creating a 0-to-1 audit management platform that replaced fragmented SharePoint, email, phone, and document-based processes with a centralized digital workflow.
- Conducted customer research, workflow analysis, usability testing, and stakeholder workshops to identify pain points and guide modernization efforts across Legal, Risk, and Compliance.

Bath & Body Works

Sep 2018 – Mar 2020

Lead UX Designer

- Defined the omnichannel experience for Buy Online, Pick Up In Store (BOPIS), connecting digital shopping with in-store fulfillment as digital sales grew from \$743M to \$1.23B year over year.
- Delivered the Apple Pay experience across the e-commerce platform in partnership with Product and Engineering, creating a secure, frictionless mobile checkout journey that achieved 90%+ customer satisfaction.

g20

Feb 2018 – Sep 2018

UX Designer

- Designed digital banking experiences for First National Bank and KeyBank across onboarding, disputes, identity verification, and other regulated financial journeys.
